

## Whose Kitty's Cuter?

Everything you wanted to know....but were afraid to ask.

### Voting

Nothing to it. Browse the gallery of adorable cat photos and find the cutest one. Click the "Pick Me!" button to cast your vote. We do ask that you give up your email address, but relax, we aren't selling anything. We collect it simply to ensure that you only vote once and to email you to announce the winner and next contest.

### Even cuter kitty?

Go on....cuter than this??? OK, well you should definitely join the contest. The theme is posted right up there on the voting page. Enter your info (just making sure you only enter once -- gotta give other kittie-moms a chance too!) and some info about your precious, photogenic friend.

Then, upload your photo and -- hey, presto -- your cat will be loaded in the gallery. We'll count your vote for you.

Check out the next contest theme and start date for more chances to show off your cute kitty!

### For the Kitties

So...talk to your people. Time to lighten up their instagram feed and put photos of you in their proper place...this beauty contest. You've taken unfair advantage up to now, but really, you need to step back and let their children, vacations and high school reunions get a little sunshine.
